PROFESSIONAL SUMMARY

Data Analytics graduate (M.Sc. Big Data Analytics, expected May 2026) with a foundation in Statistics, SQL, Excel, and Google Workspace. Skilled in assessing data accuracy, identifying anomalies, and translating complex, cross-functional datasets into actionable business insights through dashboards, forecasting, and A/B testing. Comfortable working independently and within teams, navigating ambiguous problems, and communicating findings clearly to non-technical stakeholders.

TECHNICAL SKILLS

Data Analysis & Query Tools: SQL, Python (Pandas, NumPy), R, Excel (Pivot Tables, VLOOKUP, Dashboards), Google Workspace (Sheets, Docs)

BI & Visualization: Power BI, Tableau, Matplotlib, KPI Tracking, Dashboard Development, Data Storytelling

Statistical Analysis: Hypothesis Testing, A/B Testing, Regression Analysis, ANOVA, Time Series Forecasting, Predictive Analytics

Data Quality & Anomaly Detection: Data Cleaning, Data Wrangling, ETL Workflows, Fraud & Anomaly Detection Modeling

Soft Skills: Analytical Thinking, Problem Solving, Cross-Functional Collaboration, Technical Communication, Independent & Team-Based Work, Navigating Ambiguity

EXPERIENCE

AI / GenAI Engineer Intern — Trigent Software Pvt Ltd

Jan 2026 - Mar 2026 · Bengaluru

- Assessed data accuracy across structured and unstructured enterprise datasets, identifying anomalies to support healthcare and business intelligence initiatives.
- Built interactive dashboards and reporting solutions for fraud/anomaly detection and operational monitoring, translating findings into actionable recommendations for cross-functional teams.
- Developed and validated machine learning models (Random Forest, Logistic Regression) for anomaly detection, achieving 95%+ prediction accuracy while reducing false positives.
- Documented processes and findings for knowledge sharing, and validated/debugged 800+ enterprise automation workflows, directly improving data quality and system reliability.
- Collaborated with cross-functional teams to integrate multiple data sources and deliver insights through dashboards and analytical reports.

PROJECTS

EV Adoption & Air Quality Analysis — Electrifying Bengaluru — Tools: Python, Pandas, NumPy, Matplotlib, scikit-learn, Excel

- Analyzed six years (2018–2024) of EV adoption and air quality data to identify trends, assess data accuracy, and evaluate environmental impact.
- Built forecasting models to predict EV penetration and PM2.5 reduction under different policy scenarios, distilling results into actionable infrastructure recommendations.

A/B Testing — E-Commerce Landing Page Conversion Optimization — Tools: Python, Pandas, Statsmodels, Matplotlib, Excel

- Designed and executed statistical A/B tests using two-proportion z-tests to evaluate landing page performance and quantify business impact.
- Cleaned and analyzed user behavior data, presenting findings through visualizations and reports to enable data-driven product decisions.

Additional Projects: Handwriting-Based Parkinson's Disease Detection (97.47% accuracy, ResNet50 + SVM) · ASL Recognition Web App (CNN-based gesture recognition) · Cloud-Deployed Appointment Booking App (Flask, AWS EC2)

EDUCATION

M.Sc. Big Data Analytics

St Joseph's University, Bengaluru · SGPA: 8.06

Jul 2024 - May 2026 (Expected)

B.Sc. Statistics & Mathematics

Mount Carmel College, Bengaluru · SGPA: 6.91

Aug 2021 - Apr 2024

CERTIFICATIONS

Google Analytics Certification — Great Learning

Goldman Sachs Excel Skills for Business — Forage

LEADERSHIP & ACTIVITIES

Head of Media & Marketing Committee, Datagram 7.0 — St. Joseph's University

Core Team Member, Reel Run Association & Mathematics

Association — Mount Carmel College

Student Intern, Under25 Summit 2023
